

Invites You to Attend
*“Is an Intraoral Scanner Right
for My Practice?”*

Are you considering adding digital impressions to your practice?

OR

Are you dissatisfied with your current Intraoral scanner?

Gain Live Hands-on Experience and Understand the Benefits of Digital Scanning

Digital impressions continue to become more and more standard in dental practices. The ADA states that 53% of all dental practices have intergraded digital scanning into their workflows. We've partnered with Dentsply Sirona to help our customers understand the benefits of digital impressions related to speed, efficiency, clinical findings and ROI. We also want to give you the opportunity to scan in a live relaxed setting to gain real experience.

THURSDAY SEPTEMBER 28TH
2023
155 BRADFORD DR.
WEST BERLIN, NJ 08091
6:00PM-8:00PM
