

# Cornerstone Dental Lab & Colonial Dental Lab Inc invite you to attend a lecture with Dr. Marcus Dagnelid, DDS

## Past, Present & Future The Dental Implant Story

Thursday, November 9th, 2023 | 6 pm - 9 pm | 3 Hours ADA CERP  
Colonial Dental Lab, 155 Bradford Drive, West Berlin, NJ 08091

Dr. Marcus Dagnelid has successfully built large dental specialist clinics, labs, and education centers, and will share his clinical experiences and the key factors for consideration from his past, present, and future that have led to his continued success.

Dr. Dagnelid will evaluate the positives of working with a simplified implant design and prosthetic platform, whilst considering how innovative treatment concepts and solutions such as intraoral scanners, and implant stability measurement devices, can not only benefit the clinician but also provide increased predictability and comfort for the patient.

Join us for an exciting lecture and see real-life clinical cases!

### Learning Objectives:

- Understand the importance of choosing the correct implant system for you and your team.
- Implement a digital workflow in your dental practice to save time, reduce costs, and provide better patient care.
- Discover effective techniques for enhancing communication with dental lab technicians to facilitate smooth collaboration in prosthetic cases.

We recommend this lecture for doctors only.

**Registration is free and dinner will be provided.**

**Limited spaces available, please RSVP to [marketingusa@neoss.com](mailto:marketingusa@neoss.com).**

**If you can't make it after registration please just let us know.**

### Speaker

Dr. Marcus Dagnelid is a Board Certified Prosthodontist. Originating from Gothenburg in Sweden, the birthplace of dental implants, Dr. Dagnelid literally started in the footsteps of Prof. Per Ingvar Brånemark, and has worked together with several implant companies on product development. He has been an international lecturer for more than 18 years in different topics such as guided surgery, loading concepts, digital implant workflows and practice management. This year will be the 9th year as a moderator for the ISQ Symposium held both during EAO congresses and online.

ADA CERP: The Association of Innovative Dentistry is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. The Association of Innovative Dentistry designates this activity for 3 continuing education credits.
